Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Species I (Figures 1A-1C), which reads on claims 1-3 in the reply filed on 3/22/2006 is acknowledged.
2. Claims 4-9 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 3/22/2006.

Response to Arguments

3. Applicant's arguments with respect to claims 1-3 filed on 9/15/2006 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Admitted Prior Art (Specification, Pages 1-2, Figures 4A-4C) in view of Ichiyoshi (JP 03-1989906).

Art Unit: 2622

Regarding claim 1, the Admitted Prior Art Figures 4A discloses a mobile apparatus incorporating a camera, comprising:

a camera lens (lens 9, Figure 4A);

a hand strap having, at one end thereof, a free-end portion that is swingable and, at another end thereof, a tied-end portion that is fixed and held by the mobile apparatus (hand strap 4, Figure 4A-4B);

a hand strap fitting part formed on the identical surface on which the camera lens is located for firmly holding the tied-end portion of the hand strap (hand strap fitting part 3, Figure 4A).

The Admitted Prior Art Figures 4A fails to specifically disclose wherein the hand strap fitting part is formed in a position that comes below the camera lens so that the free-end portion of the hand strap does not swing and move into a field of view of the camera lens when the mobile apparatus is held for photographic in an upright position in which a longer side of the mobile apparatus is held upright with a top portion thereof being directed upward. However, Ichiyoshi teaches a strap 14 used to carry a camera, the strap 14 is located below lens 11 (see Constitution, figure 1). Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the device in Admitted Prior Art Figures 4A by the teaching of Ichiyoshi in order to prevent the hand^s trap from being swung in front of the lens.

Regarding claim 2, the Admitted Prior Art Figures 4A and Ichiyoshi disclose wherein the hand strap fitting part is located in such a way that a swinging center of the hand strap comes

below a horizontal line tangential to a bottom edge of the camera lens when the mobile apparatus is held for photographing in the upright position.

Regarding claim 3, the Admitted Prior Art discloses wherein the mobile apparatus is a mobile telephone (Specification, Pages 1-2).

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
